Index of Contributors, Volume 14

Clarke, Eric F., *An Ergonomic Model of Keyboard Fingering for Melodic Fragments,* 341–382

Cohen, Annabel J., *Using the Krumhansl and Schmuckler Key-Finding Algorithm to Quantify the Effects of Tonality in the Interpolated-Tone Pitch-Comparison Task,* 57–83

Cross, Ian, *Musical Schemata in Real-Time Listening to a Piece of Music,* 117–159

Deliège, Irène, *Musical Schemata in Real-Time Listening to a Piece of Music,* 117–159

Desain, Peter, *An Ergonomic Model of Keyboard Fingering for Melodic Fragments,* 341–382

Edlund, Bengt, *Review of* The Practice of Performance: Studies in Musical Interpretation *edited by John Rink,* 326–332

Frankland, B. W., *Using the Krumhansl and Schmuckler Key-Finding Algorithm to Quantify the Effects of Tonality in the Interpolated-Tone Pitch-Comparison Task,* 57–83

HaCohen, Ruth, The *Communicative Force of Wagner's Leitmotifs: Complementary Relations Between Their Connotations and Denotations,* 445–476

Hill, David S., R*elations Among Text, Mode, and Medium: Historical and Empirical Perspectives,* 3–21

Juslin, Patrik N., *Emotional Communication in Music Performance: A Functional Perspective and Some Data,* 383–418

Kamenetsky, Stuart B., *Relations Among Text, Mode, and Medium: Historical and Empirical Perspectives,* 3–21

Karl, Gregory, *Review of* Selected Theories of Music Perception *by Harold E, Fiske,* 332–338

Krumhansl, Carol L., *An Experimental Study of Internal Interval Standards in Javanese and Western Musicians,* 95–116

Large, Edward W., *Review of* Music and Schema Theory: Cognitive Foundation of Systematic Musicology *by Marc Leman,* 319–326

Levinson, Jerrold, *Review of* Music and Conceptualization *by Mark DeBellis,* 85–91

Mélen, Marc, *Musical Schemata in Real-Time Listening to a Piece of Music,* 117–159

Palmer, Caroline, *On the Assignment of Structure in Music Performance,* 23–56

Parncutt, Richard, *Perceptual Judgments of Triads and Dyads: Assessment of a Psychoacoustic Model,* 263–280, *An Ergonomic Model of Keyboard Fingering for Melodic Fragments,* 341–382

Perlman, Marc, *An Experimental Study of Internal Interval Standards in Javanese and Western Musicians,* 95–116

Raekallio, Matti, *An Ergonomic Model of Keyboard Fingering for Melodic Fragments,* 341–382

Repp, Bruno H., *The Art of Inaccuracy: Why Pianists' Errors Are Difficult to Hear,* 161–183, *The Aesthetic Quality of a Quantitatively Average Music Performance: Two Preliminary Experiments,* 419–444, *Review of* Melodic Intonation, Psychoacoustics, and the Violin *by Janina Fyk,* 477–486

Schellenberg, E. Glenn, *Simplifying the Implication-Realization Model of Musical Expectancy,* 295–318

Sloboda, John A., *An Ergonomic Model of Keyboard Fingering for Melodic Fragments,* 341–382

Smith, J. David, *The Place of Musical Novices in Music Science,* 227–262

Stammers, Diana, *Musical Schemata in Real-Time Listening to a Piece of Music,* 117–159

Tekman, Hasan Gürkan, *Interactions of Perceived Intensity, Duration, and Pitch in Pure Tone Sequences,* 281–294

Terhardt, Ernst, *Review of* Artificial Perception and Music Recognition *by A. S. Tanguiane,* 91–93

Thompson, William Forde, *Perceptual Judgments of Triads and Dyads: Assessment of a Psychoacoustic Model,* 263–280

Trehub, Sandra E., *Relations Among Text, Mode, and Medium: Historical and Empirical Perspectives,* 3–21

Van Geenan, Erwin W., *A Parallel-Processing Key-Finding Model,* 185–223

Vos, Piet G., *A Parallel-Processing Key-Finding Model,* 185–223

Wagner, Naphtali, *The Communicative Force of Wagner's Leitmotifs: Complementary Relations Between Their Connotations and Denotations,* 445–476
